DOCUMENTATION REQUIREMENTS
Physical Mobility and/or Dexterity Impairments

Guidelines for Disability Documentation

The following guidelines are provided for evaluators, physicians, medical professionals, students and family members to guide the process of submitting documentation to the Director of Accessibility Services at Elmira College. Our goal in providing these guidelines is to facilitate the review process for students with disabilities requesting accommodations.

- Evaluators, physicians, medical professionals, etc. are encouraged to submit any prior assessments and/or evaluative reports together with the current documentation.
- Documentation must be printed on official letterhead and signed by the credentialed professional.
- A 504 Plan or Individualized Education Program (IEP) is not considered adequate documentation.
- Documentation must be submitted by a qualified practitioner who is not a family member of the student.
- Reasonable accommodations are determined based on the nature and resulting impairment(s) due to the disability.
- While the law requires that priority consideration be given to the specific methods requested by a student, it does not imply that a particular accommodation must be granted if it is deemed not reasonable or other suitable techniques are available.
- Prior receipt of accommodations (e.g., in high school) does not guarantee receipt of the same accommodations at Elmira College.
- Missing disability documentation information may result in a delay in reviewing a student’s request for accommodations.
