Wellness Living Learning Community Contract

The Wellness Living Learning Community offers students a residential living experience that is primarily a holistic wellness community in which all aspects of one's mental, physical and spiritual health are managed. The Wellness LLC is a drug, alcohol, and tobacco free community composed of a supportive group of like-minded individuals with a drive to succeed. This living area is meant to be more than just a place where students live, but also a place where students can grow in whatever way they choose. Wellness LLC residents are mature individuals who are challenged to take an active role in their on-campus life in an effort to assist them along their path to leadership and responsibility. They will be deeply encouraged to develop independent programs that enrich their community, and not to rely on others to shape their social activities. In this way, the Wellness LLC is a close-knit community which offers many exciting hall activities, contests and interesting volunteer opportunities. The location for the Wellness LLC will be the 1st floor of Perry Hall; however, this may change based on the number of students interested in this housing option. Incoming freshman students residing in the Wellness LLC will be notified of their building placement when they receive their assignment in August.

Requirements for residence on the Wellness Living Learning Community floor are as follows:

1. These rules will be in effect at all times, including break periods. During these times, all drug, alcohol and tobacco products are prohibited. Residents are expected to honor these conditions without staff intervention and to confront violations that they become aware of themselves.

2. **Violations of this policy will be addressed through the Elmira College disciplinary system. Additional consequences such as removal from the floor may occur.** The Residence Life Coordinator in conjunction with the Director of Residence Life will make these decisions.

3. When the decision to remove a student from the floor has been made, the Residence Life Coordinator will notify the individual in writing. Within one week, you will be notified of a new housing placement, to be determined by your RLC. There will be no guarantee that an equivalent type of space will be assigned. After the new assignment is made, the student will have three days to vacate the room and to occupy the newly assigned room.

4. Finally, all residents of this floor are expected to comply with Elmira College regulations and policies as stated in the College Bulletin and the Student Handbook.

My signature on this form indicates my agreement to comply with the regulations stated above.
